open flexibility combined with a clear sense of purpose was just the right thing to connect us. We flooded them with volunteers, school kids, parents; they absorbed it all and led us up the ramps as each new section was built. And they are craftsmen. They have a standard of creative skill that is inspiring, which makes the tree house inspiring.

It is beautiful. When you stand back and look at its structure in the trees, or get very close and study its fine details of handrails and doors, all of it is a wonder. It possesses magical beauty.

And it came in below budget! Wow!

Thank you Bill and B'fer and all the guys. From fall foliage to ten-below zero with a brisk January breeze, you gave us something we will never ever stop loving.

Sincerely,
